### MONEY, BONDS AND STOCKS.

A Quiet and Weak Market in New York, with Lower Prices for Everything.

NEW YORK, Oct. 10 .- Money on call was easy at 21903 per cent., the last loan being made at 3 per cent., closing offered at 3 per cent. Prime mercantile paper, 4 4 @64 per cent.

Sterling exchange was quiet and steady to firm at \$4.84 for sixty-day bills, and \$4.88 for demand. The total sales of stocks to-day were 214,113 shares, including the following: Delaware, Lackawanna & Western, 6,900; Lake Shore, 7,020; Missouri Pacific, 4,175; Northwestern, 5,613; New England, 57,345; Reading, 37,212; Richmond & West Point, 8,450; St. Paul, 34,630; Union Pacific 9,187; Western Union, 11,815; Wheeling & Lake Erie, 11,815.

The stock market was quiet, weak and declining throughout most of the day, and the result of the transactions was to leave everything lower. The market opened this morning with a conservatively bullish feeling on the street, and London and the commission houses were both buyers. Boston, however, was the controlling factor to-day, and advices from that point reported a feeling of unessiness there and heavy liquidations, and it was not long that this mar-ket was free from the latter influence. The market, in the forencen especially, hinged upon the tone of the forencon especially, hinged upon the tone of Atchison and New England, and the drop in the for Atchison and New England, and the drop in the former, it was believed, precipitated more selling of the latter, and those stocks with which Boston is specially identified were the weak points here and carried the entire list with them. In addition to the selling of these stocks, there were revers of impending financial embarrassments in Boston, which ended in producing a feeling of untasiness here. Outside of the stocks mentioned, there was very little character or movement in the list to-day, the fluctuations in most of the active list being made within a range of less than I per cent., though tonsiderable animation was shown in St. Paul and Reading. Among the specialties, however, marked b Duluth was shown by Philadelphia gas, and St. Paul b Duluth was specially weak, dropping over four points on the unfavorable report of earnings, and a rumor of a further issue of bonds by the company. There was some improvement in the tone of the market for a time during the afternoon, by the au-nouncement of the heavy offerings of bonds to the treasury, but the "bears" and traders, who were again ranged on the side of lower figures, renewed the ham-nering of the forencon, and again forced prices off. The opening figures were from 19 2 14 per cent. above the final prices of last evening, as a rule, but there was little animation in the list outside of a few leadng stocks, and the early improvement was soon wiped sut. New England, Atchison and St. Paul & Duluth ed the decline, which, however, amounted to fractions only in the rest of the list. The decline continued with but slight interruption intil toward 1 P. M., when there was an improvement ill along the line, while the market subsided into the most intense dullness. More animation was shown in most intense duliness. More animation was shown in the last hour, however, and the decline was renewed with force, and the market finally closed quiet but with force, and the market finally closed quiet but with force, and the market finally closed quiet but the active list is lower, and St. Paul & Duluth lost 4 is, New England, 1 is; Atchison, 1 is; Burlington & Quincy, 1 is, and Colorado Coal, 1 per cent.

The railroad bend market was again quiet, with a large distribution of business, though the Reading fours, which furnished \$151,000 to the day's total of \$1,122,000, was the only active issue. The tone of the market showed an improvement over that of yesterday, and the final changes, while generally for small fractions, were in most cases in the direction of the transfer of the state of the s better figures. There was no special feature. The advances include Chesapeake & Ohio purchase money. 2, to 114; Louisiana & Missouri Riyer firsts, 23, to 122, and Hocking Valley sixes, 2, to 84.
Government bonds were dull and steady.
State bonds were dull but firm. Closing quotations

CHICAGO, Oct. 10.—An unsettled feeling existed in wheat. The opening was weak and prices 22220 lower than the closing figures of yesterday, being a continuation of yesterday's weakness. A good deal of wheat was offered, but at the decline the offerings were soon absorbed, and then started in some good buying, credited chiefly to local traders, and prices, with some fluctuations, advanced 42410c above extreme inside figures; cased off 11sc, fluctuated and closed about 21sc 22c higher than yesterday. Fluctuations were again frequent and quite rapid. Trading was principally local. Some new buying was reported on local account, in expectation of the government report making a poorer showing than last month. Operators, toc. looked for a natural reaction after a break of 13c 133c, and "shorts" also figured as buyers Outside trading was rather light. There was no special news to influence the market. Corn was firmer, a firm feeling prevailing most of the session, trading being fairly active and fluctuations within 11so range. The market opened about 1sc lower than the closing prices of yesterday, was quite active, and advanced 13c, remained steady for a time, cased off 3sc and closed 12c5sc higher than yesterday. There was no particular influence on the market outside of the rather liberal purchases by a house supposed to be acting for a prominent local trader. These purchases, together with the covering by some "shorts," advanced prices. Oats were in gather light request. The opening was easy, with November selling 3sc lower, but other markets were doing better, and cash oats sold well. These influences exacted a better feeling, caused more trading, and prices were 12c 1sc better. In mess pork an unsettled feeling prevailed, and prices ranged lower. Opening sales were at 121sc 20c decline. The break invited moderate purchases, a fair raily followed, outside figures were fully maintained, and the market closed firm. In lard a feature of the trading was the free selling

# Volume.

INDIANAPOLIS, Oct. 10. In nearly all departments the volume of trade is healthy in its character, and prices as a rule are firm and steady. In the produce market is marked activity, the commission men seldom enjoying a better season than the present. The supply of all articles is liberal, and good prices have ruled most of the time. Poultry is in fair demand, but on large arrivals prices are weak, while eggs are scarce, local consumption taking all the arrivals. The butter market is weak. In commenting on this market Arthur Jordan. in his price current, says: "There is no change in the condition of the market. Dealers in oleo still have most of the trade, owing to the indif-ference of the officers whose duty it is to en-force the law. A wholesome agitation of this force the law. A wholesome agitation of this subject, such as has been given it in other cities, might lead to "a change," which would greatly benefit all who are interested in maintaining a market for genuine butter." Regarding poultry, Budd & Co. say in their price current. "Get your prices down on poultry. Receipts are heavy, and at this season of year prices always go low East. We look for only low prices for some time. Our prices will be found much lower this week, as prices for only low prices for some time. Our prices will be found much lower this week, as prices are extremely low in New York, as we are governed by that market." Receipts of apples are large and it must be choice fruit to bring \$2 per barrel. Beaus are in large supply and prices downward in their tendency. The supply of grapes is large, prices ruling weak. Receipts of onions are heavy, prices weaker. Irish and sweet potatoes in good supply, prices steady at the range of several days past. Quinces in light supply, prices strong. Lemons in light demand, prices unchanged. Only Jamaica oranges yet on the market, these firm at \$7 to \$8 per barrel or \$2 per 100. Cranberries in liberal supply, prices steady. The wool market is eral supply, prices steady. The wool market is quiet at unchanged prices. The millers speak of flour as being in good demand and prices still advancing in tendency.

There was a fair attendance on 'Change today, but bidding was not as free as on Monday. Wheat ranged at about Monday's prices. Arrivals are not as large as last week, but offerings are liberal. Millers are not in the market, at least until they are carrying lighter stocks than at the present time. Corn rules steady, and is in fair demand. Oats are quiet. Offerings lib-

eral. Sellers more numerous than	payers

## A REMARKABLE CASE.

The well-known Carlsbad Sprudel Salt produced from the Natural Springs of Carlsbad, better than any of the so-called blood purifying reme-

The cashier of M. Guggenheim's Sons, 96 and 98 Franklin Street, one of the largest import houses in the United States, writes under date of June 30, 1888, as follows: For years I have suffered from abscesses which always formed on the back of my neck, and had to be cut from time to time to obtain relief. I used all sorts of blood purifiers, but without avail. The abscesses would always reappear. I suffered very much pain until my physician advised me to use the genuine imported Carlsbad Sprudel Salt (powder form). I used this for about four weeks, and since that time I have been entirely free from the disease.

My complexion cleared, and I have enjoyed good health ever since. I cannot speak too highly of this really valuable remedy, and have recommended it to all my friends, who also speak of its wonderful effects as a laxative. Yours very respectfully,

I. MEYERS. Dr. A. L. A. Toboldt, in a paper read before the Ninth International Medical Congress, speaks of the genuine imported Carlsbad Sprudel Salt (powder form), as follows: My experience with the Carlabad Sprudel Salt Powder in constipation, diseases of the stomach, liver and kidneys, diabetes, gout, rheumatism, etc., has been such that I may truly say, that no remedy which I have ever used has given me so much pleasure and

profit as this particular one. Dr. Lustig, in his book on the action of Carlsbad I may here state that in chronic abdominal allments, constipation, gastric catarrh, dyspepsia, diseases of the stomach, liver and kidneys, diabetes, gout and rheumatism, we know of no more effications, rational or simpler remedy than the Carlabad Mineral Water and the Carlabad Sprudel Salt. A person can at any time of the year, without the least interruption to business, and with very little cost, not only remove any of the above ailments but also prevent their further developement by the use of this remedy.

The genuine Carlabad Sprudel Salt Powder is put up in round bottles. Each bottle comes in a paper cartoon and has the seal of the city of Carlabad, and the signature of Eisner & Mendelson Co., Sole Agents, around the neck of every bottle. All others are worthless imitations. Pamphlets and Dr. Toboldt's lecture mailed free upon application. Eisner & Mendelson Co., 6 Barclay Street, New York, Sole Agents.
